Repair Customer Procedure

Please be advised there will be an inspection fee charged for every repair unit received.

No inspections will be performed without a purchase order, credit card, check, or cash deposit.

We will not reassemble any unit determined to be scrap, or beyond economical repair or do patch work on any equipment. Every repair will be to new condition or not at all.

We cannot repair any type of unit we are unfamiliar with, unless the customer provides service and repair information or an accurate manufacturer and part number.

For any parts not picked up after 30 days, the customer will be notified and the parts will be scrapped.
